

Makeup Table

User's manual

Parts list

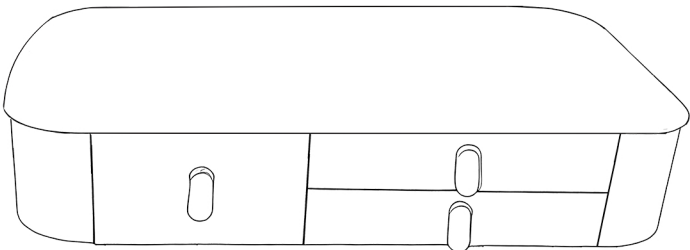

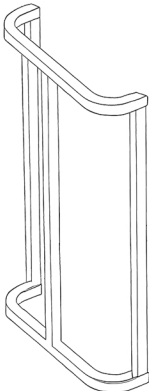

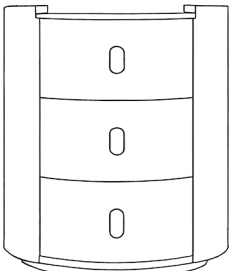

table x 1

mirror x 1

metal leg x 1

side table x 1

foot pad x 2

wood leg x 2

screw x 3

screw washer x 3

wrench x 1

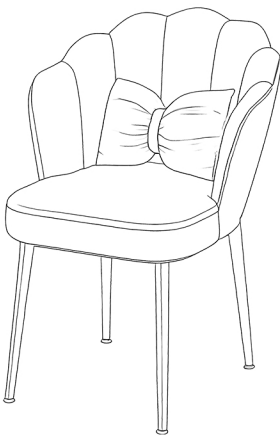

charger x 1

Installation Steps

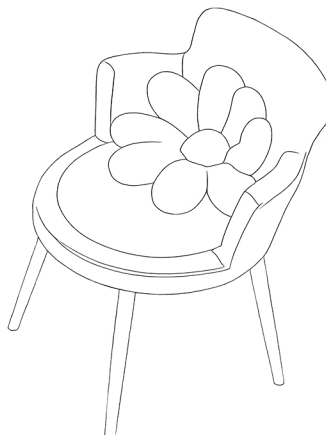

1. Stick the 2 foot pads on the 2 wooden legs and set them aside. The foot pads are anti-slip and anti-wear, and can effectively protect the ground.
2. Turn the table over and we can see that there are 6 reserved holes on the left and right sides of the bottom of the table. We can choose to install the metal table legs on the left or right. Align the 3 holes of the metal table legs with the reserved holes at the bottom of the table, then place the screw washers, and then screw the screws in. The wrench can be used to fix the screws.
3. Take out the 2 wooden table legs and install them on the other side of the table (the side without the metal legs). Rotate the wooden table legs into the reserved screw holes. (Note: install the wooden legs in the upper and lower holes, not in the middle hole.)
4. Use 2 screws to rotate and fix the base and mirror surface of the mirror, and the mirror installation is completed.
5. Place the side of the table with wooden legs on the side table so that the table can stand steadily. Then place the mirror on the table.
Connect the adapter to the power ports on the back side of the mirror, then use the adapter to connect the power supply. The entire makeup table is now ready for use.

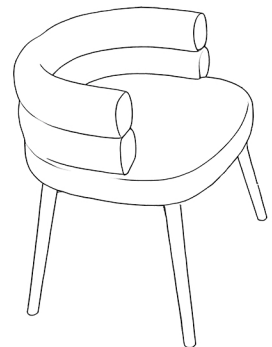

Optional Chairs

Petal chair

Flower chair

Baby chair
